Md Saklain Mahmud

Nationality: Bangladeshi **Date of birth:** 04/11/2002 **Phone:** (+880) 1863784443 (Mobile) **Email address:** saklainmahmud556@gmail.com **LinkedIn:** https://www.linkedin.com/in/md-saklain-mahmud/ **GitHub:** https://github.com/SaklainMahmud **Website:** https://www.saklain.site/ **Address:** Green road, New Market, 68/A, #H-Cumilla House, 2nd Floor, 1205, Dhaka, Bangladesh (Home)

ABOUT MYSELF

I am Md Saklain Mahmud, a Computer Science and Engineering undergraduate with a strong interest in software development and software quality assurance. Passionate about building reliable and efficient software systems, I am skilled in programming, system design, and testing methodologies. Motivated by real-world problem solving, I aim to contribute to high-quality software products while continuously learning and adapting to emerging technologies.

EDUCATION & TRAINING

BACHELOR IN COMPUTER SCIENCE & ENGINEERING

AMERICAN INTERNATIONAL UNIVERSITY-BANGLADESH (AIUB) [2022 - Current]

City: Dhaka | **Country:** Bangladesh

Higher Secondary Certificate

Comilla Residential College [2018 - 2020]

City: Comilla | **Country:** Bangladesh

Secondary School Certificate

Comilla Zilla School [2014 - 2018]

City: Comilla | **Country:** Bangladesh

Internship

NeuroFlight Lab [01/02/2026 - Current]

City: Dhaka | **Country:** Bangladesh

LANGUAGE SKILLS

Mother tongue(s): Bengali

Other language(s): English

SKILLS

Programming Language

JavaScript | Python | C# | C++ | Java

Frontend

HTML | CSS | React | Next.js

Backend

Node.js | Express.js | REST APIs | Nest.js | JWT Authentication

Databases

MongoDB | PostgreSQL | MySQL

Tools & Technologies

Git | Github | Vite | Postman | Thunder Client | Netlify | Microsoft Office

Concepts

Authentication & Authorization | MERN | CRUD Operations | MVC Architecture

PROJECTS

ProjectFlow — Full-Stack Project Management System Tech: React, Node.js, Express, MongoDB, JWT

• Designed and developed a full-stack project and task management web application with secure JWT-based authentication.

• Implemented protected REST APIs for projects and tasks with ownership-based authorization.

• Built a React frontend with login, registration, dashboard, and task workflow (todo / in-progress / done).

• Integrated frontend and backend using Axios and Authorization headers.

• Followed clean folder structure and modular architecture; maintained separate frontend and backend repositories on GitHub.

Portfolio Website Tech: React, JavaScript, HTML, CSS, Tailwind CSS

• Designed and deployed a responsive personal portfolio website using React.

• Implemented reusable components and modern UI practices.

• Deployed on Netlify with live project showcases.

Job Marketplace Website Tech: PHP, MySQL, HTML, CSS

• Developed a full-stack job marketplace platform with user registration, job posting, and applicant management.

• Designed relational database schema and implemented secure data handling.

Library Management System using Java Tech: Java

• Built a Java-based library management system supporting book registration, borrowing, and returns.

• Focused on modular design and user-friendly workflows.

e-Shop Management System Tech: C#, OOP, Database (SQL)

• Developed an e-Shop Management System using C# with a focus on object-oriented design and backend logic.

• Implemented core features including product management, inventory tracking, and order processing.

• Designed and integrated a relational database to ensure data consistency.

• Applied software engineering principles such as modular design and separation of concerns.

INTERESTS

1. Software Development

2. Frontend Engineering

3. Debugging
